CCNA Security Self-Practice Review Questions for the security track 2016/17 Edition: (with 110 questions covering the 210-260 IINS exam) ExamREVIEW

The new CCNA Security Exam 210-260 IINS is an associate level exam that can earn you the CCNA Security certification. The certification aims to allow one to demonstrate the skills required to develop a security infrastructure, recognize threats and vulnerabilities, and mitigate these accordingly. We create these self-practice test questions referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to “simulate” actual exam questions. “realistic” or actual questions that are for cheating purpose are not available in any of our products.
