Camouflage Uniforms of European and NATO Armies: 1945 to the Present (Schiffer Book for Collectors with Price Guide) J.F. Borsarello

This full-color book covers nearly all of the NATO, and other European armies camouflaged uniforms, and not only shows and explains the many patterns, but also their efficacy of design. Described and illustrated are the variety of materials tested in over forty different armies, and includes the history of obsolete trial tests from 1945 to the present time. More than two hundred patterns have been manufactured since World War II using various landscapes and seasonal colors for their look. The Vietnam and Gulf Wars, African or South American events, as well as recent Yugoslavian independence wars have been used as experimental terrains to test a variety of patterns. This book provides a superb reference for the historian, reenactor, designer, and modeler.
