The basic principles of management can be considered as an effort in developing the strategies and processes that help us to maximize the productivity within stipulated norms and setting the process oriented environment that makes it easy to achieve the desired goals. The same is applicable to the seven-day management program that aims at developing the traits that are critical for achieving sustainable growth and success as a leader and manager. The program is designed to address the core issues that makes it difficult to break the comfort zone and prompts us to follow the tactics in a diligent manner. The most difficult part of the change process that is related to self-assessment and implementation of the techniques to acquire requisite skills.

The exercises described in the program are based on the fusion of different principles of management that includes goal setting, need assessment, gap analysis, objective building and above all custom strategy preparation. Anyone can very easily adopt the techniques defined in the book and implement them to develop the traits for becoming successful. The beauty of the program is a customisation that allows you to implement the principles in your own way thus there are minimum chances of distraction from the set routine. Apart all the exercises are simple and take a little time, and can be adopted easily in your daily routine. Once you start on with the first set of exercise you will develop an interest that is a crucial factor in continuing any such program. This is a must try program for everyone as it focuses on every aspect and is not limited to management like most programs do. **you need this book!**
