On New Year's Eve in Manhattan, a werewolf attack sparks an epidemic. Each night the victims multiply. The disease spreads. An army grows.

As authorities scramble to contain the monsters, they discover that one man is behind them. His name is Demetrius Valenkov. And he has a message for the United States: FIND A CURE.

The disease evades an international coalition of top scientists. The president must prepare an unspeakable solution.

But one person has picked up Demetrius Valenkov's trail: FBI counterterrorism specialist Brianna Tildaschow. Forged by tragedy, training and technology, she's the government's most efficient--and ruthless--manhunter.

Assisted by a horror blogger and a squad of elite commandos, Tildaschow must hunt Valenkov across the globe and uncover the sinister secret of the curse threatening mankind. Tens of thousands are infected. Time is running out.
