## **Men of Coal** Edmund Birchall

The last mine in the UK closed in 2015, bringing to an end the industry that put the 'Great' into Great Britain. This is the story of brave and courageous men who mined the coal in a workplace that was dark and dangerous. However, their sense of humour and strong camaraderie was always present. The Novel is set in the 1950s when coal was still being produced by hand filling but as mechanisation was slowly creeping in. The book describes Redman's Colliery's Management and its dedicated miners. The pit's daily routine is soon turned upside down by a political visit from the leader of the Tory government
