A Short Leash Loki Renard

Caged by a neglectful master, Sierra dreams of the freedom she had in the wilds, far from the city-dwellers who use women with wild genes as hunting pets. When her inept owner tires of her biting him, he brings her to Master Kade, a specialist trainer. Upon seeing her pitiful state, Kade confiscates Sierra from the fool who mistreated her and takes her as his own.

From the moment Sierra lays eyes on Kade, she's sure of two things: the muscular, scarred man carries the same wild gene she does, and just as importantly, he is used to getting his way. Sierra has no intention of being trained without a fight, but she soon learns that her new master is more than ready to make her obey, even if that means a hard spanking on her bare bottom. As much as she resists him, Kade quickly proves he can be gentle as well as firm. Being in his arms makes Sierra feel safe, and when he takes her to his bed she finds herself satisfied in a way she has never felt before.

Her training reaches a new level when Kade allows his best friend, a doctor, to thoroughly, intimately examine his pet, leaving her blushing with shame yet helplessly aroused. Doctor Charles is everything Kade is not—debonair, educated, and a model citizen—yet Sierra finds herself irresistibly drawn to his quiet dominance. Between Kade's wild appeal and Charles' calm allure, Sierra isn't sure where her future lies, until she discovers that while a pet cannot serve two masters, she can be shared by them.

Publisher's Note: A Short Leash is a stand-alone erotic romance novel set in the same world as The Hunter's Pet. It contains spankings, sexual scenes including a threesome, pet play, medical play, elements of BDSM, and more. If such material offends you, please don't buy this book.
