## **Catalog of Teratogenic Agents** Dr. Thomas H. Shepard MD

The most comprehensive one-volume guide of its kind, this standard reference work has been newly revised and expanded to present information on teratogenic agents in a ready-reference format. The tenth edition includes nearly 400 newly listed agents, approximately half of which are developmental genes that cause syndromes or congenital defects. It also reviews recent literature on clinical and experimental teratology, including important Japanese literature not easily available to researchers.

This latest edition of The Catalog of Teratogenic Agents emphasizes human data and covers pharmaceuticals, chemicals, environmental pollutants, food additives, household products, and viruses. A special effort has been made to obtain as much information as possible on drugs and other agents to which pregnant women may be exposed. Substances are listed alphabetically, and each entry briefly summarizes research procedures and results. As in previous editions, a complete list of references is included for each agent.

### **From reader reviews:**

#### **David Lalonde:**

Nowadays reading books be a little more than want or need but also get a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge the particular information inside the book in which improve your knowledge and information. The data you get based on what kind of publication you read, if you want attract knowledge just go with education books but if you want experience happy read one with theme for entertaining for example comic or novel. The Catalog of Teratogenic Agents is kind of e-book which is giving the reader unpredictable experience.

#### **Phillip Hicks:**

Information is provisions for anyone to get better life, information nowadays can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider any time those information which is inside former life are difficult to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you receive the unstable resource then you have it as your main information it will have huge disadvantage for you. All of those possibilities will not happen in you if you take Catalog of Teratogenic Agents as your daily resource information.

#### **Donald Noble:**
