A Conspiracy of Silence: Franklin D. Roosevelt Impact on History Harry Goldsmith

Harry S. Goldsmith takes a surprising and historical journey into the last days of one of America's most revered leaders in *A Conspiracy of Silence: The Health and Death of Franklin D. Roosevelt*. In his quest to find the truth behind FDR's death, Goldsmith sought to find FDR's medical records. Failing to uncover such documents, he stumbled across a secret memo. This document revealed that FDR was aware of his deteriorating physical condition and knew how it would impact the importance of Harry S. Truman's 1944 nomination for vice presidency. Goldsmith contends that the memo was directly tied to the political intrigue involving FDR's last year of life. *The Health and Death of Franklin D. Roosevelt* also contains a host of new information regarding FDR and gives further evidence that he was well aware of the impending attack by the Japanese on Pearl Harbor in 1941.
