Part One of this book presents an overview of the Wisdom Teachings which, through the ages, have offered answers to the basic questions of life in what is often called the Sacred Science. Based on the perceptions of seers who stand in the energy world and describe what they see, the Wisdom Teachings describe the nature of both God and humanity, the structure of the universe, the purpose of human life, and the laws and principles at work in both cosmos and humanity.

Part Two describes the journey of expanding consciousness that individuals undertake when they test out the Wisdom Teachings through their own direct experience. You will be able to identify your current phase of unfolding and find how to encourage the natural process of growth already underway within you.
