America's Marines provide a large range of capabilities for the modest investment of our nation's scarce resources. In the most recent months and years, in locations all over the globe -Pakistan, Haiti, the Caribbean, the U.S. Gulf Coast, South America, the Gulf of Aden, the Philippines, and Afghanistan - Marine Corps forces were either engaging with our allies, conducting full spectrum counter-insurgency operations, enabling the Joint Force and Interagency Non-governmental Agency elements, providing humanitarian assistance and disaster relief, deterring aggression or contributing to assured access. Today's Marine Corps is a "middleweight force." We fill the void in our nation's defense for an agile force that is comfortable

operating at the high and low ends of the threat spectrum or the more likely ambiguous areas in between. We will continue to support our national objectives in Afghanistan. Concurrently, we will modernize, reset and reconstitute our equipment in order to provide a balanced air-ground-logistics team that is forward deployed and forward engaged; shaping, training, deterring and responding to a wide variety of global crises and contingencies.
