Fertility problems can cause frustrations and pain. I've personally witnessed marriages fall apart because of how big this issue became in their relationship. What once was a deep, burning love turned into hate and sleepless nights.

What happens when someone tries again and again to become pregnant but no progress? The human spirit slowly but surely becomes weak and disheartened.

You see losing faith is a terrible thing. Because with no faith, it becomes that much harder to keep pressing on to find a solution.

I felt led to write this book as I have much compassion for women with fertility problems. I believe there is a better way. Natural ways to finally become pregnant without dangerous chemicals and side effects that could potentially GET IN THE WAY of becoming pregnant instead of helping.
