## **The Books of the New Testament** Leighton Pullan

This book is intended to meet the widely prevalent need of an introduction to the New Testament which is neither a mere hand-book nor an elaborate treatise for specialists. It is written in a conservative spirit, and at the same time an ample use has been made of recent critical investigation. It has been impossible to give an exhaustive proof of the position maintained, but no matter of great importance has been overlooked. The arguments will be intelligible to educated persons who are unacquainted with the Greek language.
