**Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action)** Enrique Ramos Melgar, Ciriaco Castro Diez

If you've done some Arduino tinkering and wondered how you could incorporate the Kinect—or the other way around—then this book is for you. The authors of *Arduino and Kinect Projects* will show you how to create 10 amazing, creative projects, from simple to complex. You'll also find out how to incorporate Processing in your project design—a language very similar to the Arduino language.

The ten projects are carefully designed to build on your skills at every step. Starting with the Arduino and Kinect equivalent of "Hello, World," the authors will take you through a diverse range of projects that showcase the huge range of possibilities that open up when Kinect and Arduino are combined.

- Gesture-based Remote Control. Control devices and home appliances with hand gestures.
- Kinect-networked Puppet. Play with a physical puppet remotely using your whole body.
- Mood Lamps. Build your own set of responsive, gesture controllable LED lamps.
- Drawing Robot. Control a drawing robot using a Kinect-based tangible table.
- Remote-controlled Vehicle. Use your body gestures to control a smart vehicle.
- Biometric Station. Use the Kinect for biometric recognition and checking Body Mass Indexes.
- 3D Modeling Interface. Learn how to use the Arduino LilyPad to build a wearable 3D modelling interface.
- 360° Scanner. Build a turntable scanner and scan any object 360° using only one Kinect.
- Delta Robot. Build and control your own fast and accurate parallel robot.

## What you'll learn

- Arduino and Kinect basics
- Interfacing Kinect and Arduino through Processing
- Communicating: Serial and communication over networks
- Interacting with the physical world: Sensors and actuators
- Volumetric Scanning
- Step-by-step instructions on a variety of Arduino/Kinect projects

## Who this book is for

Intermediate to experienced gadget hackers who want to learn how to combine Arduino with Kinect, or who want inspiration for innovation.

### **From reader reviews:**

#### **Ruben Martin:**

Within other case, little persons like to read book Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action). You can choose the best book if you'd prefer reading a book. As long as we know about how is important some sort of book Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action). You can add knowledge and of course you can around the world by just a book. Absolutely right, because from book you can realize everything! From your country right up until foreign or abroad you may be known. About simple issue until wonderful thing you could know that. In this era, we are able to open a book or searching by internet system. It is called e-book. You can use it when you feel uninterested to go to the library. Let's go through.

#### **Jordan Moore:**

Do you have something that that suits you such as book? The book lovers usually prefer to pick book like comic, limited story and the biggest some may be novel. Now, why not attempting Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action) that give your pleasure preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the method for people to know world much better then how they react in the direction of the world. It can't be explained constantly that reading practice only for the geeky man or woman but for all of you who wants to be success person. So , for all you who want to start reading through as your good habit, you are able to pick Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action) become your own personal starter.

#### **Mason Childress:**

Beside that Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action) in your phone, it could possibly give you a way to get more close to the new knowledge or details. The information and the knowledge you are going to got here is fresh from your oven so don't possibly be worry if you feel like an old people live in narrow commune. It is good thing to have Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action) because this book offers to you personally readable information. Do you often have book but you seldom get what it's all about. Oh come on, that will not happen if you have this in your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. Techniques you still want to miss the idea? Find this book and read it from currently!

#### **Jack Bell:**

Don't be worry for anyone who is afraid that this book will certainly filled the space in your house, you might have it in e-book technique, more simple and reachable. This kind of Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action) can give you a lot of friends because by you checking out this one book you have matter that they don't and make you more like an interesting person.

This particular book can be one of one step for you to get success. This book offer you information that possibly your friend doesn't learn, by knowing more than different make you to be great persons. So , why hesitate? Let me have Arduino and Kinect Projects: Design, Build, Blow Their Minds (Technology in Action).
