Autumn Winds (The Fellowship of the Last Book 14) P.J. Staab

“Autumn Winds”... book fourteen of the long saga, unfolds as they leave the hot springs area where they had been camped, stalled as they looked for an alternative route, once they found their “original” route, that leg of their route was no longer passable, due to the river running along side of it now long dried.

Only as they make the difficult journey, they find the lake they sought to reach, was also long dried a massive oven of heat and dust and sand, along with the sun beating down and reflecting off the thought of water, when seen by scouts, only to find sheeted with mica. No hope other than to hope, as they have to push forward, as there is no going back without water.

And so once again, faced with an utter calamity, they manage to squeak through, as they find the same dry river, that had fed the lake and the previous water course blocked by a long ago landslide. A large, deep, clear lake behind it as D’cord and then a large number of Dwarves race to unstop at least some of that natural dam, and send water down the riverbed. And manage to do so in time... barely... as they recover and eventually push on, gathering as nomads, the wild produce and game from the lands, living out the life of nomads they had adopted. And in time reach the three large frontier settlements clustered about each other and there they trade and stock up. Only on leaving and once more pushing on to the wintering over destination, they find the largest party of ‘Bluemen’ ever assembled headed for the very settlements they had left.

These “Bluemen” the most sick and perverse cult of cannibalistic ravers were the bane of all frontier life. Known to overcome smaller settlements and any travelers, dressed only in the blue paint they wore, they would attack and the end results were terrible tortures for any females, and literal butchering of the rest, except any lads old enough to survive the indoctrination and entry into the drug laden cult. How they perpetuated their numbers over the hundreds of years they existed.

Caught between them and the settlements, the Clan retreats, and together, with the settlements make a trap and ambush the Bluemen and literally, in one fell swoop, all but eliminate the scourge from existence. And then once more head for the lone mountain, where a previous, small Dwarf holt was supposed to exist. No one knowing if any still survive there.

They find it near impossible to enter, but eventually those within hear them, as yes, a large number still existed, and open it up and invite them within a much larger holt than any expected. Only one last episode unfolds as they seek large trading towns well south, as a small party go to secure the last of the needed winter supplies. And there find something unexpectedly, as once more, slaves, only a very large number of them are female Dwarves and their children. The last remnants of the hated “Black Dwarves” whom were defeated by those led by none other than Torquelle Oakenarm.

This time the roles reverse, as the massive Dwarf then stands between these ex-slaves and their full freedom and acceptance, a home and all that means, as now D’cord has to face his best friend, to champion these unfortunate souls, to secure them that life...
