Argumentation and Critical Decision Making (7th Edition) Richard D. Rieke, Malcolm O. Sillars, Tarla Rai Peterson

The first and most thoroughly developed audience-oriented argumentation book, *Argumentation and Critical Decision Making* presents argumentation as a cooperative, communicative process. This book examines the general principles of argument in a rigorous yet readable manner and then applies those principles to different spheres of life – law, science, religion, business, and politics – to explore how conventions of argument change when applied to these real world arenas. Focusing on the dynamics of decision making and using real life examples to illustrate principles, *Argumentation and Critical Decision Making* aims to help readers develop practical argumentation skills within the world of their daily lives.
