Miguel Aguilar Carrillo

Oficios de la luz (Los cincuenta) (Spanish Edition) Miguel Aguilar Carrillo

Como escritor Miguel Aguilar Carrillo es una voz antigua. En su poema Oficios de la luz destacan precisamente la voluntad por rescatar el primer impulso, el instinto primigenio que activa al poema; impresion que nos remite a los viejos sabios que juegan a ser niños con este misterio intemporal de la poesía; a través de ella, el poeta explora los puntos cardinales de la condición humana con una vocación eminentemente estética que no pretende distraer al lector con postulados intelectuales. El énfasis descansa en las sensaciones y el sentido marca el aliento de los poemas. Buena dosis de melancolía y cinismo vislumbra esta obra del espíritu que como bien apuntaba Sartre son alusiva al autor y su entorno. Cabría anotar -no obstante- que se nos descubre el ánimo de una generación con futuro y lastre que sigue esperando la hora de reponer el tiempo homicida que transcurre entre poema y poema; ese espacio que se guarda en los Oficios de la luz que es el territorio del poema. Antonio Vilanova de Allende.
